

Legacy Runner Red Clark

Over 24 years of running this race so many memories, most of the time i have run by myself driving up from long beach and reading the Sunday times in the car relaxing before the race. I loved it when I had friends who looked at me and thought "hell if he can do it, why cant I?" Getting so many friends family, students to run has been my best memories of this race that has become so much of my life. I have my first Tattoo on my shoulder that is the emblem of the Marathon.
